

ECTS weighting

The data consists of Medialogy exams after 2014. This means that students can be enrolled earlier than 2014, down to 2009. We only included the last attempt that a students received for a particular exam, i.e. their highest grade. Table 1 shows the number of students on each campus and each semester. Note that cohort 2015 and 2016 haven't finished their bachelor when data was collected in August 2017. Moreover, no students enrolled to the Medialogy bachelor at Esbjerg after 2014. Table 2, Table 3, and Table 4 shows the grade average, median, and standard deviations for each campi and each year. Table 3 shows weighted the grades based on the norminated ECTS for a year (ECTS attained the exam / norminated ECTS for a year * last grade). Table 4 shows weighted the grades based on the student's attained ECTS for a year (ECTS attained the exam / ECTS attained for a year * last grade).

Excluded from the analysis:

- 10 pass/fail course exams
- 7 students who changed campus
- students with merit from other educations
- the students' previous attempt in an exam
